

A world-class fully integrated **Business Management Platform as a Service**, powered by Microsoft, that provides the following:

- Secure Email using your own domain name
- MS Outlook to easily and conveniently manage your email
- MS Word
- MS Excel
- MS PowerPoint
- MS Power BI for analyzing and visualizing all your business data
- MS Cortana Artificial Intelligence to speed up data entry and processing
- MS SharePoint for managing files, document sharing and websites
- MS OneDrive for file sharing and easy, remote access to files
- MS Teams (including Skype for Business, Yammer and other collaboration tools)
- MS Contact Manager to provide enhanced CRM capabilities
- MS Flow to enable users to develop customized process flows for routings, approvals, etc.
- MS Power Apps to enable users to build their own mobile apps to help them be more productive
- MS Dynamics 365 Business Central to provide accounting, financials, order management, purchasing, receiving, inventory management, reporting and more (some things QuickBooks can't do)
- 24x7x365 application support for all users
- Online and Built-in, self-help application documentation (including contextual search)
- Enhanced backup and recovery of your data and files
- Easily integrates to existing business software that you may already have
- Fast and Easy to set-up, learn and use (typically 1-2 weeks)
- Always have the latest versions (no more version translations or multiple-step saving required)
- Seamless migration of your old email and files to **Business 365™** (We do the hard work for you)
- Fixed, predictable pricing – no surprises!

Additional Add-on Options include:

- VOIP services with Once-click Dialing
- Advanced Manufacturing and Warehousing capabilities (Full Warehouse Management System)
- Service Management (Spare Parts Mgt., Warranty Mgt., Technician Scheduling and more)
- Advanced Cyber Threat Protection
- Customized Reporting and Report Development Capabilities

Advantages of Business 365™:

- Full integration enables users to manage the entire business cycle without having to switch from one application to another. Users can perform most customer-facing activities right from their email!
- Looks and feels like the Microsoft tools users are accustomed to
- Integrated data connects email to customers to products and services to sales to shipping to invoicing to payment, and everything in between.
- Ability to access and use the system from anywhere on any device (awesome mobile device capabilities)
- Built on the world's most secure Cloud Platform (Microsoft Azure)
- 99.9%+ Uptime guaranteed by Microsoft
- Able to be further customized to your own business needs

Available Packages:

- 1-5 users: \$399/month + \$4995 one-time set-up/migration fee
- 6-10 Users: \$699/month + \$6995 one-time set-up/migration fee
- 11-25 Users: \$1,599/month + \$9995 one-time set-up/migration fee
